Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Hoppe on 8/20/2007.

In the specification:

On page 1, as the first sentence of the specification, insert: -- This application claims the benefit of U.S. Provisional Application 60/465,133, filed 4/24/2003. --

Oath/Declaration

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. The recommendation to include heptene as a comonomer in ethylene/olefin polymers for use in blown film compositions is well known in the art (see US 5,595,705). However, the prior art fails to disclose or suggest an ethylene/heptene copolymer wherein the resulting film has the specific properties relationships required in the instant claims.
